Co Supervisor

NAME	DESIGNATION	DEPARTMENT
------	-------------	------------

1. Research Domain

Basic Sciences

Clinical Sciences

2. Project Summary (Describe using about 250 words)

3. Purpose of the study

--

4. Objectives of the study

--

5. Impact of proposed research

--

6. Collaborating labs

--

7. Facility and Funding

--

8. Estimated budget and proposed project period

--

9. Study involves the use of
Check all pertinent ones

- a) Experimental drug(s)
- b) Radioactive agents
- c) Non-therapeutic research
- d) Experimental surgical procedures
- e) Fetal research
- f) Behavioral research
- g) Gene molecular cloning
- h) Other (please specify):

--

3. Description of methods used in protocol.

- a) Study design
- b) Data analysis plan
- c) Age range
- d) Sex (male, female or both)
- e) Give brief explanation subjects
- f) Procedures (Laboratory analysis)

4. Publications out of the project work, if any

5. Location of study:

Outpatients clinics

Inpatient
units

ZMU Department:

Other than ZMU (please specify the location)

Other hospitals and dental clinics within the boundaries of
Karachi metropolis.

6. Will any tests be performed which are not routinely included as part of the work-up for these types of patients?

7. What is the significance of study in context to Pakistan?

8. Has this study been conducted elsewhere earlier?
If “Yes” why this research being repeated in Pakistan?

9. The relevance and expected outcome of the proposed study
