

# OUR VISION

To be a prestigious institution of higher education recognized for its academic excellence and research, nurturing ethical and intellectual curiosity in students and positively contributing towards the development of a knowledge-based society in Pakistan, which can fully understand the changing political, economic and social paradigm.

# OUR MISSION

Ziauddin University seeks to have a futuristic approach in imparting knowledge, skills and confidence, wisdom and values in students which are necessary for a coherent civil society where knowledge is disseminated and service rendered with the highest sense of moral uprightness in the region and the world at large.

### SIR DR. ZIAUDDIN AHMAD M.A. (Cantab.)PhD (Gottingen) D.Sc. C.I.E, M.L.A (Central)

#### Ex-Vice Chancellor and Rector of Aligarh Muslim University

Sir Dr. Ziauddin Ahmad was an eminent educationist, scholar and visionary of Subcontinent. He was born in 1873 in Meerut, India. At the age of 12, he passed high school with 1st Division and received Lang medal along with government scholarship at M.A.O Collegiate Aligarh. In 1895 he secured 1st position in B.A and received Coveted Shachey Gold Medal at M.A.O College Aligarh. After completion of B.A in Mathematics Dr. Ziauddin Ahmad was appointed as an assistant lecturer in MAO College. He attained M.A Degree from Calcutta University while securing 1st position and in 1901 he obtained his D.Sc. degree in Mathematics from the Allahabad University. For further studies he enrolled himself in Trinity College at Cambridge University. In 1904 he accomplished his goal and achieved Sir Isaac Newton Scholarship; He was the first Indian to receive this honor. Later in 1906, his thirst for knowledge took him to Gottingen University, Germany, where he completed his PhD in Mathematics.

Sir Dr. Ziauddin Ahmad served the Muslims of the subcontinent, by raising the educational standards of the Muslims and by promoting literacy amongst the Muslim community. He also worked as an Assistant Secretary of Sir Syed Memorial Fund established for the purpose of founding a Muslim University. He was inspired by Sir Syed Ahmad Khan's approach towards modern education. After the demise of Sir Syed Ahmad Khan, Dr. Ziauddin played a leading role in the revitalisation of Muslim education in the subcontinent, where he enlightened the Muslims of India with his liberal thoughts on the educational system. No single individual after Sir Syed did more in the cause of Muslim education than Dr. Ziauddin Ahmad.He was appointed as Pro Vice-Chancellor of Aligarh Muslim University, and later as a Vice-Chancellor, in 1935.

Sir Dr. Ziauddin Ahmad died in London on December 23, 1947 and he was buried beside Sir Syed Ahmad Khan in the Aligarh Muslim University Mosque premises, thus fulfilling the pledge he made to Sir Syed Ahmad Khan to serve Aligarh for his entire life.

May his life ever inspire us in the path of knowledge, human service, virtue and steadfastness.

### MESSAGE FROM THE CHANCELLOR

On the auspicious occasion of the Convocation 2023 of Ziauddin University, I congratulate you all. Ziauddin University is a testament to the strength and resilience of its students, faculty, and staff. I take great pride in your commitment to forge connections, invent and create, and remain steadfast in the pursuit to make a difference. During the course of your degree programme, you have gained invaluable knowledge that will enable you to take Ziauddin's mission far and beyond. Years of hard work and determination have culminated in the development of the right skill set and attitude. You are now prepared to tackle any challenges that may come your way; ready to contribute to every field and profession, as generations of alumni have before you. On the achievement of this milestone, remember those who have supported you in this journey, especially your parents, teachers, and mentors. As you advance into the future, you have been provided with an exciting opportunity to join the world's most accomplished communities of alumni, with local and global connections, across all disciplines. I encourage you to take advantage of this opportunity and wish you all the best in your future endeavors. The future is yours; remain optimistic, committed, and continue to be an ambassador of Ziauddin University.

DR. ASIM HUSSAIN SITARA-E-IMTIAZ, NISHAN-E-IMTIAZ CHANCELLOR, ZIAUDDIN UNIVERSITY

ZIAUDDIN UNIVERSITY CONVOCATION

### MESSAGE FROM THE VICE-CHANCELLOR

Heartiest congratulations to all the graduates on the occasion of the 24<sup>th</sup> Convocation of Ziauddin University. You have undoubtedly reached a milestone in your life which has made your parents and the University proud. This is a day to remember and to cherish. Remember, getting a degree is not the end but the start of yet another phase of your life. You still have miles to go and attain greater heights as you move on in this journey of life. The name of your degree program simply indicates a small subset of the immense ocean of knowledge. Don't imprison yourself in this name of the degree. Remember also that knowledge has no bounds. This knowledge allows you to explore new areas and new worlds through multidimensional exploration. Don't shy from pursuing the excitement of exploration and discovery. As you move on ahead and reach new heights, my wish for you is to carry forward the efforts of the faculty members and the legacy of Ziauddin University with utmost pride and shape your career by sheer hard work, determination, zest and zeal. Reach for the skies; aim high and never give up. Wishing you the very best in all your endeavors. Congratulations to you once again.

> PROF. DR. SYED IRFAN HYDER

# ZIAUDDIN UNIVERSITY

Sir Dr. Ziauddin Ahmad's vision was transformed into reality in the late 1950s when his daughter Dr. Ejaz Fatima and his son-in-law Dr. Tajammul Hussain started a small maternity home in Nazimabad. Over the years, this small maternity home took shape of a busy 80-bedded hospital that serves the densely populated area of Nazimabad.

In 1968, the family of Dr. Ziauddin Ahmad established Dr. Ziauddin Hospital Trust. In the same year, this trust established a second hospital in North Nazimabad, which is now a 300-bedded tertiary care hospital, catering to a large population. This hospital provides an opportunity for students to gain knowledge and skills in assessing and evaluating a wide range of problems in a tertiary care setting. The hospital is equipped with state-of-the-art equipment necessary to diagnose and manage problems effectively and efficiently.

In August 1994, through an Ordinance (XVII of 1994), the Government of Sindh granted the permission to establish Dr. Ziauddin Post Graduate Institute of Medical Sciences. By virtue of this Ordinance, the Institute could grant its own Postgraduate degrees and diplomas.

In October 1995, the Sindh Assembly passed an Act (VI of 1995) for the establishment of Ziauddin Medical University. At this time the University also established an association with the neighbouring community to set up a health centre, and entered into mutual partnership with the Karachi Municipal Catchments Population by providing healthcare services & educational support.

In December 2005, Ziauddin Medical University was given the Charter as Ziauddin University vide "The Ziauddin University" (Amendment) ACT 2003 dated December 13, 2005.

Presently, following faculties/colleges are successfully running under the umbrella of Ziauddin University:

### • Faculty of Health Sciences

- Ziauddin Medical College
- College of Dentistry
- College of Speech Language & Hearing Sciences
- College of Medical Technology
- College of Rehabilitation Sciences
- College of Podiatric Medicine
- Faculty of Nursing & Midwifery
- Faculty of Pharmacy
- Faculty of Engineering, Science, Technology & Management
- Faculty of Liberal Arts & Human Sciences
- College of Media Sciences
- College of Languages, Literature & Culture
- College of Education
- College of Clinical Psychology
- Faculty of Eastern Medicine & Natural Sciences
- College of Eastern Medicine
- College of Horticulture
- College of Natural Sciences
- Faculty of Law, Politics & Governance
- Faculty of Veterinary and Animal Sciences

### INTRODUCTION

Ziauddin University has under its umbrella the Faculty of Health Sciences (FHS) which strives for the advancement of societal health and well-being. We train physicians, physiotherapists, speech therapists, health care researchers, occupational therapists and physician assistants who work together and provide the finest patient care.

Our commitment to excellence is demonstrated through our faculty members who are nationally and internationally recognized experts in their fields. In addition, students benefit from learning opportunities that go beyond the classroom to include experiential education in a range of settings from laboratories to community health centers.

We are known for implementing small group, problem-based education, with focus on self-directed, life-long learning, as well as on the development of evidence-based medicine. Integral to our mission is our extensive research programme. Our pioneering education advances and our excellence in world-class research have consistently placed Ziauddin University among the best medical universities in the region. We look to translate what we learn in our laboratories into healthcare practice and are committed to improve the health standards for ourpeople.

The faculty is involved in facilitating various programmes in our colleges including

- Ziauddin Medical College
- College of Dentistry
- College of Rehabilitation Sciences
- College of Speech Language & Hearing Sciences
- College of Medical Technology
- College of Podiatric Medicine

ZIAUDDIN MEDICAL COLLEGE

### VISION

To provide excellent educational opportunities of national and international standards in a conducive learning environment that serves to empower students to be the world's leaders in achieving global healthcare outcomes.

#### MISSION

To produce humane healthcare providers from diverse groups of people to meet future primary health care needs; having virtues of dignity and humanity with an appreciation of the social sciences. Special emphasis is placed on promoting critical reasoning, self-directed and lifelona learning with competencies to research, communicate and lead efficiently. Integrated, community-oriented, and evidence-based teaching will enable students to collaborate within the healthcare industry for better patient outcomes.

#### HISTORY

Ziauddin Medical College was founded in 1996 and is based in the University building, on Clifton campus, where it enjoys a range of exceptional facilities. All the degree programmes under the faculty are fully accredited by the Pakistan Medical Council and Higher Education Commission. These programmes provide a stimulating foundation for professional practice. Ziauddin Medical College and Dr. Ziauddin Hospital have three main campuses in different parts of the city in addition to several centers providing medical care & teaching:

• Dr. Ziauddin Hospital, North Nazimabad Site: a 350-bedded hospital that caters to a large population.

• Dr. Ziauddin Hospital, Clifton Site: a 180-bedded hospital, which also includes Ziauddin University building along with the University Administration offices.

• Dr. Ziauddin Hospital, Kemari Site: a 150-bedded hospital which provides services mainly to the Karachi Dockyard Labour Board (KDLB) employees. • Dr. Zareen Cancer Hospital, North Nazimabad.

• Dr. Ziauddin Memorial Maternal and Child Health Centre, Gole Market Nazimabad.

Learning campuses have been carefully selected for students, in order to develop the necessary knowledge, skills, and attitudes for providing quality and cost-effective care to all segments of the population.

Ziauddin Medical College is a member of the Association of American Medical Colleges and VSLO (Visiting Students Learning Opportunities). Through this membership Ziauddin Medical College is one of the only six medical colleges in Pakistan providing learning opportunities to its students at international level.

The graduates of Ziauddin Medical College are skilled practitioners, researchers and teachers with leadership potential for exercising knowledge. They acquire skills to look at health problems holistically and solve them through an innovative programme at individual, family and community levels, with emphasis on individual attention in small tutorial groups. To meet the challenges posed by exponential growth in information, students are motivated to become self-learners, using student-centred learning strategies such as Problem-Based Learning (PBL) and Case-Based Learning (CBL) that develop self-learning skills and team work. Community-Based Education (CBE) is the focal point of the programme; it also focuses on community development.

Graduates of Ziauddin Medical College successfully match the residency programme in international universities.

Research projects with its relevance to national and community needs are also encouraged for developing scope of new knowledge.

### PROGRAMMES OFFERED

- MBBS
- MPhil in Basic Health Sciences
- MPhil in Molecular Medicine
- PhD in Basic Health Sciences
- PhD in Molecular Medicine
- MD in Clinical Subjects
- MS in Clinical Subjects
- Master in Healthcare Management
- Diploma in Forensic Medicine
- Clinical Diplomas
- Diploma leading to Master in Healthcare Management

#### FACULTY

The Faculty of Health Sciences is one of the most established faculties in Ziauddin University. It has around 220 faculty members who are involved in teaching and training of more than 700 undergraduates and over 200 postgraduate students in various disciplines of Basic and Clinical Health Sciences. The faculty is actively engaged in conducting conferences/ seminars, educational workshops and publishing their work in international and national journals.

#### FACILITIES

Ziauddin Medical College is well-equipped with state-of-the-art laboratories upgraded regularly. Recently Anatomage, a modern state-of-the-art virtual 3D dissection table and three projection microscope have been added to enhance and anatomy learning.

There are three multi-disciplinary research laboratories with six PhD faculty members headed by Executive Director Research to facilitate students and faculty in their research endeavors.

The investigators are provided seed grants from the University and are facilitated to compete for national and international grants.

The College encourages and organises various workshops, seminars and conferences on medical education, research and health related issues. The MPhil/PhD students are given credits for attending and participating in such intellectual events. The standard of education in the medical college is maintained by a well-organised Quality Enhancement Cell, which conducts regular evaluations and makes recommendations for continuous quality improvement.

To date 21 PhD, 107 MPhil, 25 MD, 11 MS and 1980 MBBS students (including Batch-23) have graduated from Ziauddin Medical College.

# **GOLD** MEDALIST

#### "We did it!

ZIAUDDIN UNIVERSITY CONVOCATION

Everyone is ready to throw their graduation caps up in the sky and take the oath to always believe in methylxanthines being the superior class of drugs to be prescribed to a medical student.

These five years of medical school at Ziauddin have been nothing less than the one ride that everybody warns you about in an Adventureland. It's frightening to even think about giving a consult to your sympathetic nervous system but when you are jumping up high, and adrenaline is rushing through your veins, it makes the hardships worth it. All the memories of reaching five minutes late to a closed classroom door by your anatomy professor, running around the entire campus to get your logbooks signed by a resident, or sitting together at zee cafe to eat mayo fries have made this ride worthwhile.

It's pertinent to mention the incredible consultants, professors, and teachers who have been a constant source of support and encouragement to all of us and not only taught us medicine but lessons that will help us become better people in this society.

Lastly, to my fellow graduates "When you leave here, don't forget why you came", you all are destined for everything great".

COLLEGE OF DENTISTRY To be recognized as a leading dental institution known nationally and internationally for providing academic excellence of the highest professional standards to enable dental graduates to be the leaders in delivering quality oral healthcare services.

#### MISSION

College of Dentistry, Ziauddin Univeristy aims to build the future of dentistry by producing competent and skilled dental professionals by ensuring excellence in dental education, applied research, and ethical practices, in a collegiate environment. Quality education focuses on professional skills, behaviors, self-directed and lifelong learning abilities to improve healthcare facilities by adopting evidence-based and innovative technology-enhanced teaching to respond to the changing healthcare demands.

#### HISTORY

Ziauddin College of Dentistry was established in the year 2009 and offers a four-years degree programme leading to Bachelor of Dental Surgery (BDS). We recognise the challenges met by students once they enter into professional lives. Therefore, we empower them with the different ways of absorbing information and taking responsibility of their own learning using student-centered learning strategies such as Problem-Based Learning (PBL) and Case-Based Learning (CBL). The teaching strategies for the dental students have been designed to promote adult learning, self-reliance and critical thinking in addition to the theoretical knowledge it is important that the students have a significant exposure to the curative, preventive and rehabilitative facets of oral and general health care. Ziauddin College of Dentistry promotes research projects at both undergraduate and postgraduate levels. It also offers postgraduate programmes in Basic Dental Sciences and Clinical Sciences.

#### CURRENT PROGRAMMES

- BDS
- MPhil
  - •Oral Biology
  - •Oral Pathology
- MDS
  - Oral & Maxillofacial Surgery
  - •Operative Dentistry
  - Periodontology
  - •Oral Pathology
  - •Orthodontics

• FCPS:

- •Oral and Maxillofacial Surgery
- Operative Dentistry

#### FACULTY

The clinical dental training is supported by a well-equipped outpatient department (OPD). Six different departments cater to oral health needs of patients. Oral Diagnosis/Medicine, Operative Dentistry along with Paedodontics cater child oral & dental needs, Oral & Maxillofacial Surgery, Orthodontics, Prosthodontics and Periodontology. A wide range of treatments starting from preventive dentistry and oral health promotion to full rehabilitation is provided mouth and practiced at highly subsidized rates under the supervision of specialist doctors. For the first two pre-clinical years the college has a state-of-the-art prosthetic laboratory, phantom head laboratory and oral biology laboratory to supplement didactic learning. Well-equipped OPDs and Laboratories with highly qualified and experienced faculty form an ideal environment for professional development.

The College of Dentistry recently acquired 3D Virtual Dental Simulators, which are the first virtual haptic dental simulators in Pakistan and in the region. Using latest technologies of haptic and virtual reality, this simulator brings improvements in student skills training as well as in student's assessment. It helps in simulation-based student training and allows the candidates to be perfectly trained prior to actual clinical practice on the patients.

#### 

College of Dentistry is actively involved in the provision of community services via their school outreach programmes in which departmental faculty along with students visit low to middle-income schools. The objective is to disseminate oral health education along with oral screening. The college is also involved in delivering preventive dental services at the Primary health care center Gulshan-e-Sikandarabad, the nearest catchment area with around five to six hundred thousand of the population belonging to the low-income

group. The college has placed one dental surgeon and one hygienist at the preventive dental clinic, PHC.

College of Dentistry provides training for students in the diagnosis and management of oral conditions by promoting oral health through organized community efforts. The department strives to educate the public through student group activities and awareness programmes with the goal of preventing and controlling dental diseases such as oral cancer, oral manifestations associated with systemic diseases and involving special children's needs on a community-wide basis.

## **GOLD** MEDALIST

"The road to success is seldom smooth. Along the way, we face setbacks and failures, and we are constantly reminded of our limitations. However, we are all capable of achieving great things, but it takes hard work, dedication, and support (and for some, lots of caffeine) to get there. For myself, I know it was some permutation of the things mentioned above.

It has been a challenging but rewarding experience. From learning about the intricacies of the tooth in class to applying that knowledge in clinic, it has been a journey full of ups and downs (despite the medal that may suggest otherwise). I have tried to stay focused and disciplined throughout my four years, but also to have fun and enjoy the process. As I write this, I am filled with a range of emotions – pride, gratitude, relief, ambition, and excitement – that are difficult to fully articulate, but I trust you get the gist.

This medal belongs to all those who supported me along the way. My family, especially my parents have been my biggest cheerleaders, and I would not have made it here without them. My friends have been a source of constant encouragement, guidance, and solace throughout countless sleepless nights, cramming for exams. And lastly, I am grateful to all the faculty members for their dedication and commitment to our education.

Finally, to my fellow graduates, I would like to congratulate you all on this momentous achievement and wish you all the best in your future endeavors. May we continue to inspire and support one another, and may we never forget the lessons and memories that we have shared together".

# COLLEGE OF SPEECH LANGUAGE & HEARING SCIENCES

#### MISSION

College of Speech Language & Hearing Sciences (CSLHS), Ziauddin University, upholds all endeavours towards excellent services in speech, language, hearing and swallowing disorders indiscriminately in the global community, through culturally and linguistically appropriate professional degree programmes, as well as clinical research and development in the field of speech – language pathology and audiology.

#### HISTORY

In 2006, with the collaborative efforts of the Speech and Hearing Association of Pakistan (SHAP) and Ziauddin University (ZU), the first ever college for speech, language, communication, swallowing and/or voice disorders was established in Karachi, Pakistan. College of Speech, Language and Hearing Sciences has flourished into a successful clinical and academic facility. We take pride in upgrading the undergraduate programme by offering a BS, now in Audiology and Speech Language Therapy and MS in Speech Language Pathology. A year-long Diploma in Childhood Development and Psychopathology aimed at equipping health professionals, educationists and support personnel with knowledge and skills in identifying and working effectively with children having special needs, is also offered at the CSLHS. In addition to these, CSLHS has collaborated with READvslexics and ACELP for a multidisciplinary diploma course.

#### PROGRAMMES OFFERED

- BS Audiology and Speech Language Therapy
- MS Speech Language Pathology
- Diploma in Child Development & Psychopathology
- Diploma READS
- Diploma ACELP

#### 

The CSLHS trains students to become excellent pioneers in this field of study. Academic and clinical hours are divided over the course of the programme. At CSLHS, the students' Speech Language Therapists dexterously perform evaluations and assessments, as well as treat children and adults having speech, language, feeding and swallowing disorders on a oneon-one basis, under the supervision of their senior lecturers and professors. Seminars, workshops and conferences are conducted periodically by professionals from USA, Canada, UK, UAE and India to ensure all clinical practices are at par with new developments across the world.

The CSLHS takes pride in having developed computer-based assessment and therapy tools that are linguistically and culturally appropriate to cater to the needs of our population. The CSLHS clinic was renovated in 2015 and has 16 clinical spaces for individualized and group therapy as well as play therapy. This includes the voice and swallow lab, psychology and occupational therapy clinic and an audiology clinic. We have recently introduced remedial classes held at our clinic by Ms. Rubina. Parents and teachers training workshops are also conducted for interactive learning. The students of CSLHS are encouraged to participate in community development programmes workina with the underprivileged sections of society.

The College has successfully produced 16 batches, where 50+ competent indigenous professionals are catering to over 150 patients each week. CSLHS has not only helped in providing services for a spectrum of communication disorders, but has also spread awareness of the field and such impediments.

#### FACULTY

Ms. Amina Siddiqui has been at the helm of affairs at the CSLHS, with her core team of speech language therapists namely Dr. Tehmina Tabish as Vice Principal of the College and Mr. Shahid Ali as full-time Assistant Professor; Ms. Samina Masood as part time assistant professor; Mr. Ali Punjani, Ms. Amna Bokhari, Ms. Fatima Yousuf, Ms. Faryal Qayyum, Mr. Hafeez Punjani, Ms. Hoor Fatima, Ms. Rabia Qamar, Ms. Rabika Amanullah, Ms. Sonia Shah, Ms. Taleah Tariq, Ms. Zoha Asif, Mr. Zafar Wafai, Ms. Zainab Sadiq as full-time Senior Lecturer; Ms. Mahnoor Hasan, Ms. Mahnoor Arif, Ms. Rabbiyah Binte Sohail as Part-Time Senior Lecturers; Ms. Inaara Rahim Somani, Ms. Anusha Abdul Samad, Ms. Ayesha Siddiqa Part-Time Lecturers; Ms. Ayesha Butt, Ms. Tasneem Ali, Ms. Mahnaz, Maqbool, Ms. Mahvash Sait, Ms. Meghna Khanna and Ms. Sabah Habib as International visiting faculty; Dr. Khalid Mahida, Ms. Shehla Siddiqui, Mr. M. Yaseen, Mr. Zahid Yaseen, Dr. Najam-ul-Haq, Mr. M. Taqi, Dr. Shoaib Patel, Ms. Tehmeena Waqas, Dr. Farah Ahmed, Dr. Hassan Danish as visiting faculty.

## **GOLD** MEDALIST

"My bachelor's in Audiology and Speech Language Therapy at the College of Speech Language & Hearing Sciences, Ziauddin University has been an appreciable experience. The programme is quite extensive in terms of learning about a variety of disorders affecting the pediatric through the geriatric population.

The teachers are professional, competent and passionate in their field and have knowledge of the latest evidence-based practices for assessment and treatment of disorders affecting an individual's speech, language and hearing abilities. The faculty is always present to help, encourage and inspire me. The classes are relaxing and productive. Each course provided is structured to meet the student's needs and the projects are diverse and interesting, allowing us as students to showcase our capability and understanding of the course.

Studying at College of Speech Language & Hearing Sciences, Ziauddin University with a supportive team of teachers have polished my communication skills and provided me with the courage to be confident in my own work, voice my opinion and has encouraged and motivated me to put my skills to work.

The clinical experience gained as a student working at the Ziauddin Speech, Language & Hearing Sciences Clinic alongside a variety of other institutional and tertiary care placements provided all the support, necessary tools and knowledge required to step into the professional career and even secure a job before graduating.

It was great learning and academic experience altogether and this degree prompted me in securing a job before graduating. I am looking forward to applying the numerous skills learnt and for the exciting opportunities my profession is going to bring".

ZIAUDDIN UNIVERSITY

The Medical Technology Programme aspires to add committed and competent professionals to the global healthcare and community.

#### MISSION

College of Medical Technology strives to impart holistic theoretical education, hands-on clinical skills and supervised clinical practice for crafting future technologists, scientists, researchers, educators and leaders. These international standard graduates will strengthen inter-professional collaboration in healthcare and community.

#### SCOPE/AIM

Medical Technology Programme aims to produce international standard medical technology professionals by imparting specific knowledge, skill-based training and active clinical practicum in a disciplined environment to instill professional ethics for better global employment opportunities.

#### 

The College of Medical Technology opened its door in 1998 and offered a Bachelor's degree initially in Medical Technology (B.Sc. in MT). Since then, it has successfully enrolled sixteen batches but recognizing the growing challenges and the students' requirements, Ziauddin University laid the foundation of BS Medical Technology in March 2011.

#### PROGRAMMES OFFERED

#### • BS MEDICAL TECHNOLOGY (4 YEARS)

Following are the clinical specialities of Medical Technology programme:

- 1. Cardiac Perfusion
- 2. Cardiovascular Sciences
- 3. Clinical Laboratory Sciences
- 4. Dental Hygiene and Technology
- 5. Neurosciences
- 6. Nuclear Medicine
- 7. Radiation Therapy
- 8. Radiological Imaging

#### THIS YEAR'S HIGHLIGHTS

This year College of Medical Technology proudly confers the BS Medical Technology degree to over 72 students and Associate Degree in Ultrasonography to over 04 students. The educational journey ends as students have lined up in the hallways, waiting to start their commencement procession.

## **GOLD** MEDALIST

"Studying at College of Medical Technology, Ziauddin University was an incredibly enriching experience. The college provided a commendable learning environment that has left a lasting impact on my academic and professional journey. The education and training I received has not only equipped me with the necessary knowledge and skills to excel in the healthcare field, but also instilled in me the confidence to excel in my career. The dedicated faculty and staff imparted knowledge and played a vital role in my personal and professional growth.

I am forever grateful to Ziauddin University for providing me with a world-class education and for launching me into a fulfilling and successful career path".

ZIAUDDIN UNIVER

COLLEGE OF REHABILITATION SCIENCES

#### VISION

Bestowing eminence in Rehabilitation.

#### MISSION

Being a futuristic rehabilitation sciences institution, becoming an integral part of the health system, preparing future rehab professionals with the knowledge, skill and attributes of evidence-based practice for the community's wellbeing.

#### HISTORY

College of Rehabilitation Sciences (ZCRS), Ziauddin University was established in 1999 with the aim to produce competent rehab specialists by providing quality education and inculcating the element of evidence-based practice with the intent to improve patient care. College offers diploma, undergraduate, upgradation /deficiency programmes, postgraduate and doctorate programmes in Rehabilitation, namely:

- Phd, Doctor of Philosophy In Physical Therapy
- Mphil, Master of Philosophy In Physical Therapy
- DPT, Doctor of Physical Therapy
- Dot, Doctor of Occupational Therapy
- BPEHSS, Bachelor of Physical Education, Health & Sports Sciences
- ADPEHSS, Associate Degree in Physical Education Health & Sport Sciences
- ADOT, Accelerated Doctor Of Occupational Therapy
- DFT, Diploma In Fitness And Training
- PGDOT, Post Graduate Diploma In

Occupational Therapy

Every year, a number of graduates pass out from the College of Rehabilitation Sciences and are working in renowned healthcare facilities in the country as well as abroad. At present more than 1000 students are enrolled in the college and are in the process of graduating in different programmes offered by ZCRS with 239 newly enrolled students in the undergraduate and postgraduate programmes 2023. This year 177 students are graduating from the college successfully, including programme of Masters of Philosophy in Physical Therapy, Doctor of Physical Therapy, first batch of Doctor of Occupational Therapy and Accelerated Doctor of Occupational Therapy.

#### FACULTY

In recent years, the faculty members at the College of Rehabilitation Sciences have actively participated in research and made several publications in renowned national and international journals. The research publications have been in HEC recognized X and Y category journals including Journal of Xi'an Shiyou University, Journal of College of Physicians and Surgeons Pakistan JCPSP, National Science Edition, PLOS ONE, Journal of Modern Rehabilitation (JMR), Balneo and PRM Research Journal, Journal of Medical Sciences, Indian Journal of Physiotherapy and Occupational Therapy, Journal of Society of Indian Physiotherapists, Journal of Research in Medical & Dental Sciences, Al-Kindy College Medical Journal, Physiotherapy Quaterly, Journal of Intellectual **Disability-Diagnosis** and Treatment, Ethiopian Journal of Health Sciences, The Internet Journal of Allied Health Sciences and Practice and International Journal Of Scientific & Technology Research respectively.

Amongst the teaching techniques, the latest addition within the programme is the introduction of Physioplus courses for students from their respective course objectives. The main idea behind this initiative is to make international courses accessible for the students and enable them to broaden their horizon. Likewise, the respected faculty has also enhanced their expertise in the specific field of study through undertaking various virtual certified courses on different platforms. Apart from the academic responsibilities, community work is one of the prime duties of the rehabilitation team. Hence, some of the faculty members of ZCRS are serving efficiently for this cause.

#### STUDENT LIFE

Ziauddin College of rehabilitation sciences in collaboration with the student council organized numerous events to engage students and to provide them exciting extracurricular activities to boost both the cognitive and non-cognitive skills. This year, the college organized the Cultural Exhibition to revive the heritage of indigenous cultures and embracing the diversity of societies globally. Many more activities and events were organized including movie day, summer gala, Pakistan day celebration, carnivals, sports day, Qawali night, concerts and a refreshing trip to the beach. Likewise, in order to unleash their hidden athletic abilities, students are provided with opportunities to participate in intra-university and interuniversity competitions. For their academic growth ZCRS organized different workshops, poster presentations and training sessions including flexibility training workshop, sociology poster presentation competition, and in collaboration with Pakistan Life Saver Programme (PLSP) offered by Secretariat based at Aga Khan University Hospital, more than 200 students of ZCRS were trained for the basic lifesaving skills and bleeding control. Additionally, more than 15 undergraduates and graduates are working with PLSP as trainers and conducting Life Savers workshops within different institutions amongst which, one of the students is also certified as a Lead trainer for the PLSP workshops. In addition to this, the students are provided with different indoor as well as sport activities that support them to stay physically active and also compete in the sports competitions. While, different presentation and projectbased assignments are also thrown to encourage critical thinking and creativity amongst the students. To further encourage them and boost the morale of the students, the best projects are awarded as well.

#### ACHIEVEMENTS

Pakistan Journal of Rehabilitation successfully maintained its "Y" category Journal category in the HEC indexing list in the year 2022 as well.

PJR is currently working on to achieve upcoming levels like Web of Science and Scopus. Furthermore, PJR is also indexed in various other search indexes like Pak Medi Net, Crossref, Google Scholar, Cite Factor and Research Bib respectively. Moreover, the PJR editorial board has dynamic members with versatile backgrounds in rehabilitation services to promote a genuinely holistic interaction among professionals and researchers. The College of Rehabilitation Sciences successfully launched and HEC accredited Campus at Sukkur, and enrolled 3rd batch of Doctor of Physical Therapy. ZCRS Sukkur campus has signed MOUs with different tertiary care hospitals in Sukkur like River City Hospital, Sindh Rangers Hospital and Hira Medical Center for the clinical rotation of the students of Doctor of Physical Therapy.

The transformation of educational trends and research in the field of rehabilitation sciences has gained its fair share of acknowledgement as well, that has led to the expansion of Ziauddin University's College of Rehabilitation Sciences. Besides, the college frequently plans seminars, workshops and webinars to enhance the knowledge and understanding of students and faculty members. Moreover, the college and faculty members are not only involved collaborations with in organizations at the national level but, they are also actively seizing the international opportunities to represent the College as well as the Country in the outside world. With that being said, a faculty member of ZCRS was selected to participate at the International Diplomats Conference Baku, Azerbaijan 2022 by a joint collaborative effort of Teaching Pakistan and Voice for Rights International Association, Canada and also received the Best Delegate Award on the occasion as well. On the other hand, two senior faculty members of ZCRS have been selected platform also for World presentation at Physiotherapy Congress 2023, which would take place

from 2nd to 4th June in Dubai respectively.

#### FUTURE PLANS

ZCRS plans to facilitate the faculty to upgrade their skills by attending national and international training workshops and motivate faculty to become more research centered. It is further planned to work in collaboration with other institutions for interdisciplinary research to promote evidence-based practices. ZCRS also aims to strengthen rehabilitation planning and implementation at national and sub-national levels by incorporating various hands-on skills and clinical-based learning. We aim to focus on improving integration of rehabilitation into the health sector and building up inter sectorial links to effectively and proficiently meet population needs. Lastly, we aim to incorporate rehabilitation in Universal Health Coverage develop a and strona multidisciplinary rehabilitation workforce that is suitable within country context and promote rehabilitation concepts across all health workforce education.

# **GOLD** MEDALIST

"My journey at Ziauddin University started back in December 2017 when after great confusion about recruiting the best platform, I landed up choosing ZCRS. This university is greatly defined as a prime platform for providing a degree of academic excellence with amazing knowledge and practical implementations, keeping a balance between learning and extracurricular.

Growing up under the experienced faculty who has always been supportive in grooming us professionally to make doctors who serve humanity and make people's lives better, these five years at Ziauddin Unievrsity were the best years of my life where I learned to grow both personally and professionally.

Ziauddin Unievrsity has not only made me the best graduate because of my high grades but also provided me recognition from starting my journey as a General Secretary to becoming the President of the Student Council of ZCRS, from a volunteer to Chief Financial Officer and ultimately the advisor of Ziauddin University Debating Championship (ZUDC) and making me a promising member of every student activity in Ziauddin University.

I believe that every challenge that comes your way manifests itself as an opportunity to learn. As a student, the biggest challenge for me was to keep a healthy balance between study and life as an individual. My mindset coupled with copious amounts of hard work and self-belief has helped me tackle obstacles otherwise I wouldn't be able to surmount them as I strongly believe that it's hard to beat a person who never gives up for which I will always be thankful to Ziauddin University and my well-wishers. As I graduate I endeavor to be a source of pride for my parents, my teachers, my friends, and above all myself".

#### VISION

The faculty of Nursing & Midwifery aspires to be an innovative leader by preparing nurses and midwives who can excel in education, technology, research, and practice at national and international level.

#### MISSION

To prepare caring, professional and innovative nurses who will provide competent and safe quality care to the population at all levels of healthcare and would continue to strengthen education and research mandate that will uplift the nursing profession locally and globally.

The Faculty seeks to prepare nurses and midwives for exemplary leadership roles through strengthening in its academic programmes, research, and practice

To advance this mission, ZUFONAM will:

- Respond to identified needs for nursing and midwifery in Pakistan
- Implement teaching, research and practice using innovative teaching strategies and state-of-the-art technology

• Provide ethical, safe, and effective patient-centered care to advance its education and research mandate

• Develop collaboration and networking with other local, national, and international institutions

• Offer a programme at par with international quality

#### AIMS

Faculty of Nursing & Midwifery, aims to prepare nurses with advance knowledge, skills and attitude needed to practice efficient and skillful nursing at national and international level. Hence upon graduation, students are able to demonstrate responsibility and accountability to the nursing and midwifery profession by:

• Adhering to established patterns of professional practices, which support legal,

religious and ethical tenant.

- Utilizing effective critical thinking and problem solving skills in caring for the individuals, families and communities.
- Integrate scholarly skills and the use of scientific methods in critiquing, and applying existing nursing theories and research findings in selected practice settings.
- Applying effective verbal and written communications in interpersonal and professional interactions with peers, patients, families and other professionals.
- Demonstrating a high degree of competence in the use of available resources to support the identified needs of individuals, families and communities.
- Developing leadership skills to promote development of the nursing profession.

#### HISTORY

Ziauddin Faculty of Nursing & Midwifery earlier known as School of Nursing was the first academic unit of Ziauddin University established in 1986 and it is recognized by Pakistan Nursing Council. In 2009, the School of Nursing was upgraded to the level of College and has been upgraded to Faculty of Nursing & Midwifery in 2020. The department offers various programmes at undergraduate and graduate level to students coming from varied ethnic and socio-economic backgrounds of Pakistan. The reputation of Ziauddin Faculty of Nursing and Midwifery has grown nationally and internationally owing to the competency, critical thinking and knowledge of the graduates.

#### PROGRAMMES OFFERED

Ziauddin Faculty of Nursing & Midwifery currently offers the following programmes:

#### POSTGRADUATE DEGREE PROGRAMME

• Doctor of Philosophy in Nursing (3 Years)

#### GRADUATE DEGREE PROGRAMME

• Master of Science in Nursing (2 Years)

#### UNDERGRADUATE DEGREE PROGRAMMES

- Post-RN BSN (2 Years)
- Bachelor of Science in Nursing (4 Years)

#### DIPLOMA PROGRAMMES

- Diploma in Nurse Midwifery (1 Year)
- Para-Medical Technician Programme (1Year)

### FACULTY

The faculty at Ziauddin Faculty of Nursing & Midwifery has student-centered approach to teaching, which develops the future nursing leaders for hospital, community health and other organizations.

#### The Faculty:

• Maintains high-quality programmes of learning that prepare graduates to meet the health care needs of hospital and the community we serve.

• Provides effective and efficient support for learning and teaching.

• Maintains effective systems of ongoing assessment and evaluation to assure high quality programmes.

• Engages in the discovery of knowledge through scholarly work, teaching and service to add to the body of nursing science.

• Provides graduate nurses with the capability of pursuing higher education in any institution throughout the world in low socio-economic areas and schools where oral health care awareness, promotion and screening are carried out.

## **GOLD** MEDALIST

"I began looking for several nursing colleges as soon as I completed my intermediate. I was made aware of a variety of options, but as soon as I learned about the professors, individualized practice sessions, community, and exposure that ZUFONAM offers its students, it immediately rose to the top of my list.

My entire nursing journey has been nothing but a roller coaster ride, full of laughs, difficulties, and opportunities to grow. Since I had such a supportive faculty, family, and wonderful platform that gave me exposure, everything seemed manageable and doable. Student week, community visits, medical camps, and other co-curricular activities gave me the chance to discover more about myself and pique my curiosity, which motivated me to seek out more knowledge.

I've certainly put in a lot of effort to get here and I can't help but marvel at how much I have learned and how far I've come during this journey. From being taken aback by the coagulation cascade to managing bleeding patients and from trembling at the sight of CPR to being the one standing between life and death. ZUFONAM has hammered me into shape, drilled resilience in me and taught me that if I put my mind on something, then even the sky isn't a limit for me".

# FACULTY OF PHARMACY

### VISION

To be a global leader in pharmacy education, research and practice with the ultimate goal of providing excellent, innovative patient care and drug development.

### HISTORY

Faculty of Pharmacy, Ziauddin University was established in January 2005, offering a 5-year Doctor of Pharmacy (Pharm.D) degree programme. The sheer dedication and professional expertise of the faculty members has led to the recognition of the Pharm.D programme by the Pharmacy Council of Pakistan. Today marks the graduation of the fourteenth batch of the Pharm.D programme. We feel happy to say that good number of MPhils & PhDs are also enrolled in the Faculty of Pharmacy.

The objectives of Pharm.D programme is to provide students with knowledge, skills, abilities, attitudes and values that are necessary for the provision of exemplary pharmaceutical care. It aims at grooming students to become experts in medication and to meet the needs of the society in an active and useful manner, both within the country and abroad. We uphold the values of integrity, trust, honesty and accountability in our actions as individuals and as an institution.

### PROGRAMMES OFFERED

- Pharm.D
- MPhil
- PhD

#### FACULTY

Our faculty focuses on developing research and professional skills among students so that they understand how new molecules are discovered and formulated for the use of society. They also guide students to understand the use of rational prescribing of medicines. Faculty of Pharmacy believes that the role of a pharmacist is to serve the society, as the profession is responsible for the appropriate and safe use of medicines to achieve optimal therapeutic outcomes.

The faculty members congratulate all Pharm.D & Postgraduate successful candidates and their parents. We wish them best of luck in their future endeavours.

## **GOLD** MEDALIST

"This year the most outstanding Pharmacy graduate from batch XIV is Dr. Areeba Sohail. She has excelled throughout the five-year programme, and as a result, she has been bestowed with Sir Ziauddin Gold Medal for her exceptional academic performance.

Her performance reflects her efforts and hard work. Areeba has demonstrated that she is dedicated, competent, and determined. She has a successful academic record and has actively participated in all extracurricular activities as well throughout the curriculum.

Her energy and enthusiasm were met everywhere with striking success. May she continue to embrace her knowledge and skills for the expansion of personal as well as professional competence. We wish her a bright future ahead".

# FACULTY OF ENGINEERING, SCIENCE, TECHNOLOGY & MANAGEMENT

#### VISION

"Exploring unchartered waters of knowledge to make the world a better place to live".

#### MISSION

The faculty mission is to acquire, promote, develop and disseminate knowledge of

engineering, sciences, technology, management, and its application to improve the quality of life and, in particular, to equip present and future generation with skills and attitudes to attain competence as professionals and to interact with industry and community for sustainable development of humankind.

## DEPARTMENT OF **BIOMEDICAL ENGINEERING**

#### VISION

To become a top-tier department of Biomedical Engineering across the nation by imparting engineering knowledge to serve healthcare industry with excellence.

#### MISSION

The Biomedical Engineering Department aims to serve the society in the best manner wherein the graduates will be equipped with required technical and interpersonal skills, motivated for research and lifelong learning; ethical values along with leadership and entrepreneurship qualities.

#### PROGRAMME EDUCATIONAL OBJECTIVES (PEOs)

• Able to solve complex biomedical engineering problems using fundamental principles of technical, basic and health sciences.

• Able to compete in the field of research and development by incorporating life-long learning using modern tools and techniques and responsive to the demands of society in ethical, professional and safe manner.

• Able to possess leadership and communication skills essential for the project management and entrepreneurship to serve the healthcare industry in the best possible way.

#### INTRODUCTION

BE Biomedical Engineering is the

application of engineering principles and design concepts to medicine and biology for healthcare purposes. Biomedical engineering is the academic discipline for:

• Development of new high data-throughput instrumentation.

• Development of anatomically and physiologically based models of the human body using the methods of mathematical physics and engineering.

• Development of new high performance computational tools which solve the equations of physics for biological materials.

• Ability to customize models to a particular person in order to interpret clinical measurements (including DNA sequence information) from that person.

• A systematic approach to data collection, guided by biophysical-based mathematical models.

At Ziauddin University, Biomedical Engineering is more focused on the instrumentation and biomedical computing. The instrumentation or more formerly Bio-Instrumentation is the field for travel enthusiastic person, as the installation, sales and service of the biomedical instruments. It keeps the engineers on the wheel, in order to maintain the instruments operational for the patient support in hospitals, pharmaceutical industries and healthcare laboratories.

Moreover, the instrumentation track of Biomedical Engineering also serves humanity by developing assistive devices for patients and elderly people.

The patients can wear the robotic suits, also known as Exo-Skeleton. These suits assist the wearer in achieving the mobility they lost due to disease, trauma or age factor. Also, the development and rehabilitation of artificial limbs lies under the umbrella of instrumentation track.

The Department of Biomedical Engineering has started three new programmes "BS in Biotechnology", "BS in Biomedical Engineering Technology" and "BS in Food Science and Technology" and two postgraduate programme "MS in Biomedical Engineering" and "MPhil in Biotechnology".

BS Biotechnology is a broad discipline in which biological processes, organisms, cells or cellular components are exploited to develop new technologies. New tools and products developed by biotechnologists are useful in research, agriculture, industry and the clinical settings. It is a research-oriented science including a fusion of biology and technology. Biotechnology can be applied in developing various vaccines, medicines and diagnostics, improving energy production, conservation and increasing productivity. In life sciences, the central application fields of biotechnology include pharmaceutical industry, medicine, farming, nutrition and environmental technology as well as the techniques i.e. genetic engineering, cell culture techniques and cultivation of microorganisms.

Biotechnologists are at the forefront of the continuous search to find new, sustainable food sources. They can work in various work environments like industrial sector, environmental sector, medical sector, food manufacturing, healthcare and pharmaceuticals.

In **Biomedical Engineering Technology**, students are prepared for entry-level jobs trouble shooting, diagnosing, repairing and calibratina biomedical equipment. Furthermore, graduation in the the Biomedical Equipment Technology allows students willina broaden their to knowledge.

MPhil Biotechnology, programme will empower students to become high quality scholars and professionals in academia and other relevant organizations/companies, alongside enable them to perform necessary analytical and research skills in the selective specialized areas. Biotechnology is not restricted as a single but includes discipline many interdisciplinary fields of science rapidly gaining significance and opportunities for youngsters who want to explore the new frontiers of science. The research in biotechnology is application oriented for commercialization in diverse fields including diagnostics, drug discovery, biosensors, veterinary, agriculture, food and pharmaceutical industries, etc.

Perspective after the completion of Diploma in Associate Engineering; The evening programme allows them to continue their education without compromising with their job responsibilities. This will not only provide them with ease of mind but also enable them for self-sustainability.

Graduates of Biomedical Equipment Technology will be able to work in the pharmaceutical industries, hospitals, patient care facilitation center, health practitioner offices.

**BS Food Science and Technology,** is one of the fastest growing multidisciplinary field which draws knowledge from different subjects including biology, chemistry,

microbiology, physics, engineering, nutrition, and other sciences. The food technology programme is designed to provide the latest knowledge about selection, processing, preservation and packaging of food products. Development of food safety and food quality systems are heart of food technology at the programmes. This programme assists students with a strong comprehension about the latest processing and industrial techniques. Additionally, the programme aims to train the students as Food Scientists who can excel professionally in the field of food technology by meeting the current

market requirements and doctors' offices with medical testing equipment.

**MS Biomedical Engineering** programme is designed to train the graduate students to fulfil the needs of healthcare organizations, industries, research and development, and hospitals. The MS in Biomedical Engineering programme is more focused towards the graduate skills and knowledge development in the field of **Bioinformatics**, **Clinical Instrumentation and Rehabilitation Engineering**.

CONVOCATION 25

## **GOLD** MEDALIST

"First of all, I would like to thank Ziauddin University for awarding the gold medal to me. Well, this is a very proud moment for me as it took approximately 4 years to reach this platform. I would also especially like to thank my teachers too, who believed in me and council me continuously which motivated me to work harder to give the best of my capacity".

### DEPARTMENT OF CIVIL ENGINEERING

### VISION

To achieve excellence in acquiring skills in the domain of Civil Engineering to serve the humanity as whole by best serving the demands of society.

### MISSION

To impart fundamental education leading to the independent knowledge and methodologies to help develop capacity for the graduates to plan, design, execute and manage the Civil Engineering projects and be outlets to the industry stakeholders.

#### PROGRAMME EDUCATIONAL OBJECTIVES (PEOs)

• Graduates having technical and professional engineering knowledge with basic understanding enabling them to synchronize the problems with modern techniques and investigation procedures.

• To produce graduates with professional development in a manner that they successfully and ethically practice in all the related fields of Civil Engineering society.

• Graduates with motivation of lifelong learning and impart the knowledge with design aspects and sustainability and contribute with substantial growth in Research and Development.

• Graduates having strong capability of team work, possessing leadership qualities, focusing Entrepreneurship and connection with stakeholder.

### ■ INTRODUCTION

**BE Civil Engineering (CVE)** The field of Civil Engineering is achieving its high demand with the passage of time and with growing trend. It is an undoubted truth that there is increase in number of developments of high-rise buildings and infrastructure so it is an immense need to be the part of profession of Civil Engineering in a broader perspective of field specialization. The demand of Civil Engineering is almost equal in its all areas including Construction

Management, Traffic or Transportation Engineering, Geotechnical Engineering, Urban Engineering, Coastal & Harbour Engineering, Seismic, Structural and Environmental Engineering. The area of Civil Engineering is very broad and linked with industrial development. Some salient features are as follows:

• The students will be able to explore or developed their own construction industries or business as consultants, contractors and designers.

• Imparting their knowledge in water resources area with the development of dams, barrages, culverts etc.

• Strengthen the area of Irrigation Engineering in undeveloped areas of Pakistan.

• To produce and may get along with the transportation firms for traffic management studies, safety and accident studies, signage plans, road furniture and infrastructure improvement plans.

• Students may approach and join hands with the soil testing laboratories.

• Students may play vital role with the industries for waste water treatment and solid waste management in the purview of CPEC.

• Students can engage with the public, private and education sector as well.

The Department of Civil Engineering has started new programme "BS in Civil-Technology",

**BS Civil Engineering Technology** The field of Civil Technology is achieving its high demand with the passage of time and market needs. There is signified increase in number of developments of high-rise buildings and infrastructure so it is an immense need to be the part of profession of civil domain in a broader perspective. The focused area of this technology includes Construction Management, Traffic or Transportation, Geotechnical & Foundation works, and Coastal & Harbour works Structures and Environmental assessment.

The programme is valuable and beneficial for the students with mixed venture, interested in studies but might not completed due to time domain and job nature or responsibilities or even not get registered in associated engineering programme due to certain decrease in percentage or marks in intermediate.

The Department of Civil Engineering is well equipped with laboratories of Surveying, Engineering Mechanics, Reinforced Cement Concrete, Transportation Engineering, Geotechnical Engineering, Environmental Engineering, Engineering Geology, Fluid Mechanics & Hydrology, Mechanics of Solids, Construction Engineering, Material Testing, Drawing studio and Computing Lab. Not only that, the balance is created in theory and practical knowledge with the induction of highly qualified and senior faculty members having enough field and research experiences. Lab staff and attendants are also available for supporting actions. In order to strengthen the research in civil profession, departmental library is established having sufficient number of titles in specialization. The curriculum is designed on the guidelines of HEC NCRC. In factual terms, by the end of course program, the student will be in a position to select and set-in stable position of Civil Engineering Technology followed by technical skills learned.

"Education in this organization is one of the absolute best speculations for understudies with a dream of upgrading employability, business and potential for higher investigations. The Department of Civil Engineering's profoundly gualified workforce, solid approach structure and persistent work to bring enhancements has changed it into Ziauddin University, Faculty of Engineering Science Technology & Management. Being a graduate of ZUFESTM, this degree has put more responsibilities on me and has caused me to understand that in an innovation driven interconnected world a Civil Engineer can possibly make the world an honorable spot for all individuals and can further develop the systemic and mechanical help expected in the current construction industry.

A year back, holding my confirmation letter, I was thinking about worth of the decisions I took. Now I can say proudly that it was one of the best decision of my life. This four years journey has given me the best of recollections. Our personnel's help, common support and values will endure longer than study hall conversations. Companions I made here will last a long way past my school limits. I'm certain that each understudy here has his/her own portion of excitement and stories that they will convey their entire lives. During study the educational environment of Ziauddin University is different from other universities, well-established laboratories and library and also well-experienced faculty members. The main point is, the study pattern is based on OBE's".

"The BS Civil Engineering Technology programme from the Department of Civil Engineering ZUFESTM was certainly an interesting, engaging, and insightful learning experience, and I found it very beneficial to my professional life and career path. The courses I completed have helped me unlock and develop certain skills in the last four years. Each course provided me with different key insights to perform better, more efficiently and with more confidence. The industrial training during the Engineering Technology programme provided an opportunity to reflect on my technical knowledge, look into methods for improving an organisation both on a personal and a project management level, and learn additional skills on construction sites. Also, I enjoyed learning and getting to know my peers participating in the programme and the lecturers. I highly recommend new students to partake in this programme as it can enhance their skills and qualifications in their technology career path".

### DEPARTMENT OF ELECTRICAL ENGINEERING

#### VISION

To be the best at serving society with the acquired skill set in the domain of Electrical Engineering and Technology.

#### MISSION

To impart quality education in electrical engineering and produce graduates that conduct research, develop technologies and contribute to the national and international scientific and socioeconomic growth.

### INTRODUCTION

The Department of Electrical Engineering (EE) offers various undergraduate and postgraduate programmes in Electrical Engineering. The Department is equipped with state-of-the-art laboratories for undergraduate and postgraduate as well as for research. The EE Department has highly faculty with industrial aualified and academic experience in these areas of expertise; Embedded and Communication Systems, Renewable Energy, Internet of Things, Smart Grid and Electrical Power Systems. The Department also believes in promoting interdisciplinary research and collaboration with other departments, universities organizations. The and Department of Electrical Engineering aims to impact quality education and play an active role in scientific and socioeconomic growth of Pakistan and the world through innovative interdisciplinary research and educational programs.

#### PROGRAMMES OFFERED BY THE DEPARTMENT OF ELECTRICAL ENGINEERING

The Department of Electrical Engineering is offering following undergraduate and graduate level programmes to fulfil the needs of students.

**1. BE in Electrical Engineering** programme is 8 semesters (134 credit hours) programme is

recognized by the Pakistan Engineering Council (PEC). The programme comprises of Computer, Electronics, Instrumentation, Communication, Power and Control Engineering. The aim of the programme is to produce graduates that are technically skillful and competent to formulate, analyze and solve complex engineering problems using technological appropriate tools and techniques.

**2. BS Internet-of-Things** is a combination of wireless communication and computer science typically an 8 semesters (134 credit hours) programme. It is specially designed to understand the principles of internet-connected devices by merging the relevant aspects of mathematics, electronics, data communication, and computing.

**3. BS Electrical Engineering Technology** is offered in the evening for the duration of 8 semesters (132 credit hours) under the guidance of the Higher Education Commission (HEC). The aim of the programme is to provide the knowledge and skills to the student to start their own business as Electrical Technologists.

**4. MS in Electrical Engineering** is typically a 4 semesters (30 credit hours) programme designed to train graduate students to fulfill the needs of the market. The three specializations offered in the MS programme are (a) Control and Automation, (b) Computer and Communication Networks, and (c) Telecommunication Systems.

**5. PhD in Electrical Engineering** is typically 8 semesters (48 credit hours) programme consists of coursework (core and elective courses) and research work (dissertation) in four specializations including (a) Control and Automation, (b) Computer and Communication Networks, (c) Power System Engineering, and (d) Telecommunication Systems. The postgraduate students are conducting research under the supervision of HEC-approved PhD supervisors.

"I am one of the lucky persons who became a part of Ziauddin University, which is providing a quality education in a friendly atmosphere and is a true representative of the urban middle class. When I was admitted to the Department of Electrical Engineering, I had no idea how I would be able to use my knowledge and skills in my career growth. With time, the conducive environment of the University and the highly qualified faculty gave us theoretical knowledge and practical experience in state-of-the art laboratory facilities. I feel the brand name of Ziauddin University will help me not only in Pakistan but in many countries abroad for higher education and career growth".

ZIAUDDIN UNIVERSITY CONVOCATION

"Today I feel so proud to be a part of Ziauddin University, which is the foundation of inquisitive learning, innovation and exploration. Four years ago, when I started my journey at Ziauddin University in BSc Electrical Engineering Technology, I didn't know that this would open up a new world of experiences and career opportunities for me. Education in this institution is one of the very best investments for students with a vision of enhancing potential for employability, entrepreneurship and higher studies. The highly qualified faculty provides quality education with practical examples. The laboratories are well equipped with modern equipment and the trained staff helped us during laboratory timings as well as in extra hours".

### DEPARTMENT OF MANAGEMENT TECHNOLOGY & INFORMATION SCIENCE

#### VISION

To be recognized as a leader in management technology & information science education producing highly capable resource pool for the relevant market.

#### MISSION

To produce quality graduates to add value as a critical component of corporate strategy and planning and lead the economic development of Technology & Information Science sector through effective Research and Development, Entrepreneurship and lifelong learning.

### INTRODUCTION

The field of management science involves the use of analytical methods to make decisions. Management science can be used in the fields of engineering, computer science, statistics, information engineering, logistics, marketing

and economics. Programmes in management science provide students with the skills they need to make optimal decisions. They learn mathematical research skills and apply them to decision making processes in a variety of fields. Methods can also be used to create and manage production systems that are more efficient. Management scientists perform analysis with computer math models. Translating business problems into analytical problems, developing analytical models, managing big volumes of data, analyzing data for providing solutions across business functional areas, interpreting analytical solutions for decision-making, and managerial communicating analytical results to novice and advanced technical audiences in a environment. business Currently the department is offering following programmes:

- 1. Bachelor of Business Administration
- 2. BS Management & Technology

"Mty Bachelors of Business Administration at Ziauddin University – Faculty of Engineering, Science, Technology and Management has been an incredible experience. The programme is quite extensive in terms of learning about a variety of management, marketing, sales and finance issues.

The teachers are professional, competent and passionate in their field and have knowledge of the latest development in field of business. The faculty is always present to help, encourage and inspire me. The classes are relaxing and productive. Each course provided is structured to meet the students needs and the chosen case studies were diverse and interesting, allowing us as students to showcase our capabilities and understanding of the various scenarios. Studying at ZUFESTM, the supportive team of teachers has polished my communication skills and provided me the courage to be confident in my own work, voice my opinion and has encouraged and motivated me to put my skills to work".

### DEPARTMENT OF SOFTWARE ENGINEERING

### VISION

In Pursuit of becoming leaders, experts and innovators in the area of design, development and implementation of Software Engineering.

#### MISSION

The Department of Computer and Software Engineering aims to produce graduates with tools equipped modern and software technologies relevant to engineering for the development of a knowledge-based economy in Pakistan. The department academic process is designed in a way that will prepare students to apply computing principles, practices, and processes to design, develop, deploy, maintain and research in software systems. A central objective of our programme is to contribute to society by advancing software engineering with strong civic, professional and ethical responsibility for dynamic and global careers.

#### PROGRAMME EDUCATIONAL OBJECTIVES (PEOs):

• Possess essential knowledge of software engineering fundamentals and ability to design, analyze and investigate the appropriate procedures using modern tools also capability to solve the complex Software Engineering problems.

• Engage and Succeed in their professional carriers through proactive involvement in societal needs for sustainable development, and ethical behavior.

• Demonstrate an ability to present and communicate effectively and able to perform as individual or team and show the managerial, entrepreneurial and leadership skills.

• Understand the importance of life-long learning through professional development, specialized certifications and pursue postgraduate studies and succeed in industrial and research careers.

#### INTRODUCTION

Software Engineering (SE) derives its essence from computer science as other engineering disciplines do from natural or life sciences, with an emphasis on issues of process, design, implementation, maintenance, analysis, and verification providing a strong foundation in engineering principles and practices as applied to software development.

Software Engineering and computer science differ in much the same way as do Electrical Enaineerina and Physics. Generally, engineering should be concerned with applying what we already know to create products, while science is more theoretical. Therefore, the goal of Computer Science, according to Parnas, "is to learn and extend the science". Software Engineering, on the other hand, aims to use science and technology already available to create products and tools for use.

ZUFESTM is offering four years NCEAC recognized degree programmes (133 Credit Hours) with a balanced mix of Computing & Software Development subjects. The SE graduates develop, design and assess software that a computer uses to function. The problem-solving skills are keys to success in this endeavour. A software engineer can find its place to study existing apps, develop new software modules & programmes or maintain the computer applications in a software house, IT firm, Bank, etc.

Department of Software Engineering is offering the following programmes:

- 1. BS Software Engineering
- 2. BS Data Science
- 3. BS Computer Science

#### SCOPE & OPPORTUNITIES

Software Engineer is the most in-demand job title across all industries, according to job site Glassdoor, employment growth for software 169

developers between 2012 and 2022—significantly higher than the national average for all occupations.

These are some top industries where software engineers should find plenty of room for career growth:

- Software Houses
- Business and IT services
- Silicon Valley Hi-tech
- Government and Defense
- Research and Development
- Freelance
- Healthcare

"Only those survive, who have the ability to be updated themselves"

"For me Ziauddin University is a surplus of mingling colors. Ziauddin University has trained me ethically and professionally which has allowed me to gain appointment.

The key to success in anything is to be passionate about what you do. Anyone who enjoys the special challenges presented by the study of Software Engineering must be passionate and determined in order to be successful, but the satisfaction which follows can be worthwhile, no matter what profession they might choose to pursue".

# FACULTY OF LIBERAL ARTS & HUMAN SCIENCES

#### 

The programmes offered at the Faculty of Liberal Arts & Human Sciences encourage students to cross traditional disciplinary boundaries to access available knowledge and skills in areas relevant to their interests and future life aspirations. For instance, we are happy to see a student majoring in Visual Arts, studying Biology, Psychology, and Anatomy as electives, and applying the knowledge and skills to the study of the human body in works of art. We believe that this interdisciplinary approach not only fosters the development of a holistic understanding and appreciation of the world around us, but it also helps to nurture the graduates' skills and abilities to analyze in-depth complex human issues which further results in identifying ways to address the issues effectively for peace and harmony in the world.

#### VISION

To develop empowered individuals who are able to deal with the complexities of life and society using critical thinking, communication skills, and a problem-solving approach.

#### MISSION

To provide students with a broad

knowledge of the world to maximize their potential and engagement with human issues as citizens of a globalized and an increasingly technological world.

Faculty of Liberal Arts & Human Sciences offers various programmes for students to discover their full potential to fulfill their dreams as well as to strive for a better tomorrow both for themselves and for future generations. The Faculty comprises of 4 colleges:

- College of Languages, Literature & Culture
- College of Education
- College of Media Sciences
- College of Clinical Psychology

Overall, the faculty offers 6 undergraduate programmes: BS English, BS Business and Psychology, BS Clinical Psychology, BS Communication & Media Sciences, BS Digital Media Marketing, B.Ed. Honours (multiple pathways- 4 years, 2.5, 2 Years and 1.5 years).

Additionally, a postgraduate programme MS Applied Psychology has recently been launched.

### INTRODUCTION

The College of Media Sciences (ZCOMS) at Ziauddin University caters to the growing needs of Pakistan's media industry. As the industry continues to grow exponentially, there is a surge in demand for qualified media professionals with academic and practical knowledge requisite of the industry. The College offers a 4-year bachelor programme in Communication and Media Sciences and a 4-year bachelor programme in Diaital Media Marketina. These undergraduate academic programmes cover a variety of liberal arts and technically-oriented subiects includina theoretical, analytical and practical application and approaches to communication process and media. ZCOMS draws its strength from its on-site radio station, 'ZU FM 98.2' and a digital agency, 'East River'. The college has been conceived with a vision to bridge the gap between academia and practice. The essence of ZCOMS programme design is to train students in parallel application of the different areas, be it traditional, or new media and learning technologies. ZCOMS is emerging as a premier media institution in Pakistan.

#### VISION

To groom students to become media professionals of international caliber who are futuristic in vision, possessing leadership qualities.

#### MISSION

ZCOMS offers media education by providing state-of-the-art infrastructure to develop curiosity and highest intellectual and professional growth for the advancement of the media industry and development of a tolerant communicative ethical society through research, exploration and experimentation.

The College strongly believes in social, economic and ethnic diversity, and as such aims to provide quality education to students of all backgrounds. ZCOMS aims to develop the students' understanding and appreciation for the culturally diverse worlds that we live in, so they are able to reach their highest intellectual and human potential. Our undergraduate programmes, through a broad and balanced curriculum lays great emphasis on high-quality education and creative solutions leading to the professional, moral, intellectual and social development of each individual.

### PROGRAMMES OFFERED Bachelor of Studies in

Communicatin & Media Sciences (BS-CMS)

This programme covers a variety of liberal arts and technically-oriented subjects covering theoretical, historical, analytical critical, and performance approaches to communication processes and media. At the end the of the four-year programme, the graduates are equipped with necessary technical and professional orientation to qualify for jobs in business or institutions that require effective communicators, as well as the background needed to pursue further education in communication or related fields.

The BS CMS Programme offers the following specialisations:

- Film & TV
- Journalism
- Communication Design

#### Bachelor of Studies in Digital Media Marketing (BS-DMM)

programme offers This students an opportunity to learn the skills of creating, processing, manipulating and promoting digital content through modern technologies. The programme prepares students in the areas of marketing through creativity and latest digital media technologies to promote brands and idea.

BS Digital Media Marketing programme is developed to impart solid theoretical and practical skills involving the latest digital and online technologies. Graduates from the BS Digital Media Marketing degree can pursue a number of careers such as digital content development, digital marketing, web development, data analytics and digital graphic design among others.

### FACILITIES

### CAMPUS RADIO, ZU FM 98.2

Campus radio ZU FM 98.2 provides students with a platform to reach out to the masses. ZCOMS students discover their talent here and become radio jockeys, producers, and editors for live and recorded shows. Students are engaged with the radio station as early as their first semester. Getting to know the operations of a radio station and developing content under faculty supervision are all part of this wonderful experience.

### FILM & TV PRODUCTION FACILITIES

ZCOMS has a fully functional state-of-the-art

production facility equipped with spacious production studios, a control room and an editing facility where students get to work on film, video and photography projects following processes precisely as practiced in the professional world.

### SOUND & AUDIO FACILITIES

Any production without proper focus on sound is worthless. At ZCOMS, students are trained on professional audio equipment consisting of mixers, professional microphones, digital audio interfaces, MIDI controllers, etc. They learn the skills of audio production and the art of sound design using these facilities.

#### EAST RIVER

At East River, students gain firsthand working experience of digital communication and campaign development. East River is a digital ad agency that specializes in creating innovative digital content for specific business needs. It specializes in creating brand visibility with a unique blend of strategy, creativity and technology.

"My experience at College of Media Sciences, Ziauddin University has been one of a kind. Throughout these four years, each course has helped me learn about the world of media and what it takes to survive and thrive in one. From group projects, presentations and practical assignments to solo-based learning, the College of Media Sciences has it all. However, the main highlight of the college are its teachers. Each teacher is well-versed in their respective field. They not only teach but encourage students to do their best no matter what. There is no judgment at ZCOMS, one can learn and present their ideas in an inclusive space and receive feedback from industry professionals.

As far as academics go, ZCOMS has really made it their mission to provide only the best. As a student, I have noticed a lot of growth within myself in the past four years. Theory-based learning and practical learning have given me a chance to enhance my academic knowledge as well as interpersonal skills. The camera equipment and studios at ZCOMS have also helped me implement my knowledge and help me better understand my subjects. Let's not forget my peers who have made my journey at ZCOMS a very exciting one.

All in all, ZCOMS has provided me with 4 memorable years of learning, understanding and growing not only in my academics but as a person too and I am glad to be a part of a college that treats its students so well".

COLLEGE OF EDUCATION

### INTRODUCTION

The College of Education (COE) is part of the Faculty of Liberal Arts & Human Sciences (FLAHS). The Principal in consultation with the Dean (FLAHS) makes all independent decisions pertaining to the academics, budget, staffing, and other administrative matters. The College of Education has a Board of Studies, chaired by the Principal and comprising both internal and external members. All COE programmes, after approval from the Board of Studies, are presented to the Academic Council of Ziauddin University for endorsement.

#### VISION

The vision of the College of Education, Ziauddin University is to build human capital utilizing human potential and capabilities for building society and the nation at large.

#### MISSION

The College of Education will be a national leader in:

a) Improving scholarship of teaching and learning; and

b) Providing leadership in service and outreach, through engaging schools to organize communities of practice for teachers and strengthen school development programmes.

#### PROGRAMMES OFFERED

• Bachelor in Education Honours Degree Programme (4 Years)

- Bachelor in Education Honours Degree Programme (2.5 Years)
- Bachelor in Education Honours Degree Programme (2 Years)
- Bachelor in Education Honours Degree Programme (1.5 Years)
- Work-based model (Saturdays)
- Evening classes (2:30 pm 5:30 pm)
- Associate Degree in Education (2 Years)

#### SPECIALIZATIONS

CoE aims to produce graduates with improved scholarship of teaching and learning and enhanced critical thinking skills. Housed in a school building, the CoE promotes the application of theory to practice. The CoE also works closely with the Ziauddin Board of Secondary and Higher Secondary Education thus allowing education, for teacher classroom practices, and assessment of learning to interact with each other for improved student learning outcomes. Thus, teacher education programmes at CoE make them distinct and unique both nationally and at the international level. We offer a degree in the following specialization:

#### o Elementary Education

At CoE, we strongly believe in building communities of practice and providing leadership in service and outreach, through connecting with partner schools.

185

## **BEST** GRADUATE

"I am certain that studying at Ziauddin University -College of Education, was not only the best time span of my life but a great choice as well to pursue my professional qualification. CoE seemed like a fairy-tale place where diversity and academic excellence were in perfect harmony. It had not only offered me opportunities to grow as a person but in profession as well. The institution sets challenges far beyond those of any other B.Ed. colleges. More importantly, they challenge you to be independent, which for me, really made the professional growth much smoother. From Principal to Faculty, everyone on campus is quite supportive and always try to make learning possible in an interactive and interesting manner. Thus, making an individual fond of being part of the classroom discussions. I am proud to be known as a 'Ziauddinian' from CoE."
